ERIK FREITAS FONTINELE

Full Stack Developer | Vue.js, TypeScript, Python, FastAPI, Java and Spring Boot

Teresina, Brazil | erikfreitas025@gmail.com | linkedin.com/in/erik-freitas-fontinele

PROFESSIONAL SUMMARY

Full Stack Developer and Computer Science undergraduate with experience building web applications and government systems in healthcare, education, and mobility. Skilled in front-end development, REST API integration, legacy system modernization, and production issue resolution using Vue.js, TypeScript, Python/FastAPI, Java/Spring Boot, Angular, and relational databases.

PROFESSIONAL EXPERIENCE

Software Development Intern | SECTI Teresina | Teresina, Brazil **Jun 2026 - Present**

- Built operational workflows in Vue 3 and TypeScript for drivers to manage passenger boarding, drop-off, route start, and route completion, with visual feedback for each stop and trip status.
- Implemented active navigation with Google Routes, interactive maps, and real-time geolocation, displaying the driver's position, stop sequence, compass, and status markers.
- Integrated mileage tracking, odometer photo uploads, and driver's license viewing through REST services, including loading states and upload feedback.
- Adapted the front end to new API contracts linking drivers, routes, and itineraries, and fixed filtering rules to display only trips assigned to the authenticated user.
- Structured composables, services, TypeScript types, and utilities with Vue Query and Axios, while improving JWT authentication, route guards, and session control in Vue Router.

Web Development Intern | Medsafe Brasil **Nov 2025 - Jun 2026**

- Developed and maintained full-stack features for government healthcare and education systems using Java 8, Spring Boot, Hibernate/JPA, Angular 5, TypeScript, MySQL, and PostgreSQL.
- Implemented a service order module with domain entities and enums, REST endpoints, file uploads, pagination, and an Angular interface, including authentication handling and HTTP 401 responses.
- Enhanced a training and certification platform with combined city and regional filters and hierarchical access rules based on user roles.
- Refactored date handling to the Java Time API and configured serialization with JavaTimeModule; resolved bugs and integration issues in a legacy environment using a GitLab issue and merge request workflow.

Web Developer | Buuh Digital **Mar 2024 - Jan 2025**

- Developed and maintained responsive web pages and interfaces for clients using HTML5, CSS3, and JavaScript, translating visual requirements into usable components and layouts.

TECHNICAL SKILLS

Front end: Vue 3, Angular 5, TypeScript, JavaScript, Vite, Vue Query, Axios, Vue Router, HTML5, CSS3

Back end: Python, FastAPI, Java 8, Spring Boot, Hibernate/JPA, REST APIs, JWT authentication

Data and tools: PostgreSQL, MySQL, SQL, Git, GitLab, Docker (basic), Postman, Swagger, Google Routes, geolocation

EDUCATION AND CERTIFICATIONS

Bachelor's Degree in Computer Science | State University of Piauí (UESPI) | Jan 2024 - Expected Jan 2028

English: EF SET 64/100 - C1 Advanced | Courses: Alura Back-End Immersion; Java - Lambdas, Streams and Spring Framework; JavaScript Basics; Brazilian Data Protection Law
